

Compliance to EU RoHS 2. Directive 2011/65/EU

Series 4 Electrochemistry Meter Models **QP451**, **QP481**, **QP458** and **SALCON II**

EDT directION Ltd manufacture the above products in the UK and hereby confirm Compliance to RoHS 2 and directive 2011/65/EU.

RoHS II requires that EEE manufacturers affix CE markings on finished products to demonstrate compliance. The above products are labelled accordingly as follows:

EU RoHS 2 relates to the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE). It replaced the first EU RoHS directive 2002/95/EC (RoHS 1) and entered into force on 21 July 2011.

We can confirm that the **QP451**, **QP481**, **QP458** and **SALCON II** instruments do not contain Hazardous substances in excess of the limits listed under RoHS 1 and the additional 10 Hazardous substances listed in RoHS 2.

Signed for and on behalf of EDT directION Limited
